

ATTACHMENT B

Clean Amended and New Claims

Following herewith is a clean copy of each amended and new claim.

A1 1. (Amended) A hypoallergenic composition for absorption into the skin or hair comprising human serum albumin in an amount effective to be absorbed into the skin or hair so as to replenish the structure of these tissues, and a cleansing, conditioning, cosmetic or dermatological agent, vehicle, carrier or excipient.

4. Canceled.

5. Canceled.

A2 7. (Amended) A composition according to claim 6 wherein the serum albumin comprises 1 to 10 mg/ml of the liquid soap.

A3 9. (Amended) A composition according to claim 8 wherein the glycerin solution comprises a 10-60% glycerin solution.

A4 11. (Amended) A composition according to claim 8 wherein the serum albumin in the glycerin solution is at a concentration in the range of 1 to 250 mg/ml.

12. (Amended) A composition according to claim 8 wherein the serum albumin in the glycerin solution is at a concentration of 40 mg/ml.

A5 17. (Amended) A hypoallergenic skin or hair treating composition according to Claim 1 comprising 1-60 mg/ml human serum albumin dissolved in glycerin solution.

A6 21. (New) A composition according to claim 1 wherein the serum albumin is modified at the N-terminal end so that the sequence begins with Lys-Ser-Glu.

22. (New) A composition according to claim 1 wherein the serum albumin is modified at the N-terminal end so that the sequence begins with Ala-His-Lys-Ser-Glu (SEQ ID NO: 1).

23. (New) A composition according to claim 1 wherein the serum albumin is modified at the N-terminal end so that the sequence begins with His-Lys-Ser-Glu (SEQ ID NO: 2)

24. (New) A composition according to claim 1 wherein the serum albumin is modified at the N-terminal end so that the sequence begins with Asp-Ala-His-Lys-Ser Glu (SEQ ID NO:3).

Ala
Carbide
25. (New) A composition according to claim 1 wherein the serum albumin is modified at the N-terminal end so that the sequence begins with Asp-Ala-Xaa-Lys-Ser-Glu (SEQ ID NO: 4).

26. (New) A composition according to claim 1 wherein the serum albumin is modified at the N-terminal end so that the sequence begins with Glu-Ala-Glu-Phe-Asp-Ala-His (SEQ ID NO: 5).

27. (New) A hypoallergenic skin or hair treating composition comprising recombinant human serum albumin in an amount effective to enhance cleansing, conditioning or other cosmetic or dermatological purpose for skin or hair, and a cleansing, conditioning, cosmetic or dermatological agent, vehicle, carrier or excipient.
